this advanced text for psychology human development and education provides students with state of the art overviews of the discipline in an accessible affordable format unique both in the depth of its coverage and in the timeliness of the research that it presents this comprehensive text conveys the field of child and adolescent development through the voices of scientists who themselves are now shaping the field

presents the findings of the carnegie foundation study on adolescence an interdisciplinary synthesis of research into the biological social and psychological changes occurring during this key stage in the life span focuses on the contexts of adolescent life social and ethnic family and school leisure and work

this edited textbook will be appropriate for use in advanced undergraduate and graduate level courses and will serve as a comprehensive and timely introduction to the field of adolescent development providing students with a strong foundation for understanding the biological cognitive and psychosocial transitions occurring during adolescence while certain normative biological and cognitive processes are relevant for all youth development varies dramatically based on a youth s position in society the volume will focus on contextual factors such as culture racial identity socioeconomic position and sociopolitical and historical events highlighting the impact such factors have on the physiological and psychological processes and treating them as key elements in understanding development during this life stage the authors will cover the major theoretical positions both historical and contemporary about adolescence as well as the relevant research and application additionally modern phenomena the ever increasing influence of pop culture i e hip hop mass media and technology i e the internet gaming and the evolution of family education and the church will be explored in depth each chapter will be written by a known expert in the field more extensive analysis of cultural political and socioeconomic factors impacting development than competing texts research to practice section covers evidence based research on practice implementation

child and adolescent development is an exciting first edition that offers teacher education a new child development text organized with a chronological approach this means that descriptions of the physical cognitive and social and emotional development of children and adolescents are spiraled throughout the text as discussions examine the characteristics of and the developmental milestones of four

major stages of development infancy and toddlerhood early childhood middle childhood and adolescents each text part investigates the significant changes that happen during that developmental period and discusses what may influence body growth brain and motor development language intelligence parent and peer relationships and self identity unique to this text is how the discussions are written from a global perspective not only illustrating the universal and diverse contexts in which children and adolescents grow up but also demonstrating how cultural contexts cultivate the development of language and impact children s and adolescent s world views and their growth in child and adolescent development knowledgeable and revered authors anita woolfolk and nancy perry explore the implications and applications of the best research in child development they provide reliable and practical guidelines to help prospective teachers and other professionals who intend to work with children and adolescents recognize typical and atypical development and learn how to support the development of children and adolescents in positive ways

for most young people development through adolescence involves exposure to a variety of new social worlds parents provide increasing room for personal autonomy and take account of emerging skills and responsibilities peers become more important as confidants and as sources of support relationships with the opposite sex become more significant and move towards greater intimacy and commitment progress through school leads to clearer ideas about personal aspirations and career choice areas such as culture social priorities and politics begin to attract more interest and involvement the direction nature and extent of the adolescent s engagement in each of these social worlds is influenced by factors such as personal history and characteristics physical maturation and intellectual capacity this book provides a detailed examination of a variety of these different social worlds the processes involved in social interactions are considered with specific reference to adolescent development a framework for analysing research dealing with relational contexts such as the family is presented and its application is illustrated and discussed further chapters focus upon more specific topics physical maturation and social development dating behaviour relationships with parents and peers stress and coping in adolescence loneliness and its characteristics relationships with the institutional order the final chapter returns to theory and urges the need to develop a more realistic conceptual structure which is relevant to the real life experiences of young people growing up in today s world the book discusses new theoretical ideas and recent findings in both traditional and emerging areas of research on social development in doing so it provides an unusually detailed picture of the changing nature of social relationships and social contexts during the adolescent years

cultural values and religious beliefs play a substantial role in adolescent development developmental scientists have shown increasing interest in how culture and religion are involved in the processes through which adolescents adapt to environments this volume constitutes a timely and unique addition to the literature on human development from a cultural contextual perspective editors gisela trommsdorff and xinyin chen present systematic and in depth discussions of theoretical perspectives landmark studies and strategies for further research in the field the eminent contributors reflect diverse cultural perspectives transcending the

western emphasis of many previous works this volume will be of interest to scholars and professionals interested in basic developmental processes adolescent social psychology and the sociological and psychological dimensions of religion

handbook of adolescent development fills a gap in the literature on adolescent development and behaviour all of the authors of the various chapters were invited to include as many findings on european adolescents as possible through this specific emphasis the handbook provides a complement to other reviews of the literature that are mostly based on north american samples the contributors are all eminent researchers in the field and the individual chapters cover their specific areas of expertise theories of adolescence along with emotional physical and cognitive issues are explored topics covered include families peer relations school and leisure time as well as problem areas such as depression drug consumption and delinquency handbook of adolescent development also incorporates a comprehensive review of the literature in the area and considers avenues for future research this multidisciplinary text will be of interest to those studying and researching in the fields of developmental psychology sociology demography epidemiology and criminology

the study of and interest in adolescence in the field of psychology and related fields continues to grow necessitating an expanded revision of this seminal work this multidisciplinary handbook edited by the premier scholars in the field richard lerner and laurence steinberg and with contributions from the leading researchers reflects the latest empirical work and growth in the field

first published in 1993 routledge is an imprint of taylor francis an informa company

the topic of adolescent development in europe is one which has received little academic attention in recent years developmental tasks in adolescence makes an exciting contribution to the field by applying socialisation theory to four major developmental tasks of life qualifying bonding consumption and participation arguing that if the tasks in these areas are mastered then personal individuation and social integration can take place a prerequisite for the formation of self identity in highly developed societies adolescence encompasses a period of about 15 years on average puberty or the transition from childhood starts earlier and earlier and the transition to adulthood is increasingly postponed developmental tasks in adolescence proposes that the way in which adolescents master the tasks of everyday life has become a pattern of orientation for the life stages which follow because of the new lifestyle requirements that are typical for modern democratic societies today a life full of uncertainties and ambiguities is no longer limited to adolescence but rather continues into adulthood hurrelmann and quenzel s sociological approach is valuable reading for students and academics in psychology sociology education social work and youth studies and for those on professional training courses in these fields

this introduction to adolescent behaviour and development now in its third edition takes an eclectic approach to the subject matter paying special attention to cross cultural diversity it encourages students to draw on their personal experiences as they explore the study of adolescence issues are examined from the scientific

perspective and the prevailing means of explaining development are provided this approach allows instructors to interject their own interpretations as they wish

the adolescent continues to be the most comprehensive book in its subject area setting the standard for adolescent psychology books since its first publication more than twenty years ago this book emphasizes the eclectic approach to adolescence presenting not just one theory on the subject but many and discussing the contributions strengths and weaknesses of each the authors also take into consideration current and important topics such as ethnic identity formation and gender issues for anyone in the fields of psychology or education with an interest in adolescents

the study of and interest in adolescence in the field of psychology and related fields continues to grow necessitating an expanded revision of this seminal work this multidisciplinary handbook edited by the premier scholars in the field richard lerner and laurence steinberg and with contributions from the leading researchers reflects the latest empirical work and growth in the field

coleman and hendry s bestselling text has now been completely revised and updated to take account of the many changes that have occurred over the last decade the book has now been reformatted into textbook style
