the quarterly review of distance education is a rigorously refereed journal publishing articles research briefs reviews and editorials dealing with the theories research and practices of distance education the quarterly review publishes articles that utilize various methodologies that permit generalizable results which help guide the practice of the field of distance education in the public and private sectors the quarterly review publishes full length manuscripts as well as research briefs editorials reviews of programs and scholarly works and columns the quarterly review defines distance education as institutionally based formal education in which the learning group is separated and interactive technologies are used to unite the learning group

based on the authors research over the past decade into the neurobiology of central auditory processing and its linkage with language and cognitive systems offers information on diagnosing assessing and managing disorders of the processing

emphasizing preschool age and school age children and

the story starts in a small and very catholic town where he was born and was raised feeling the ignorance and religious prejudices from the people that when they saw he was different signaled him because of that

this book is about the development of one institution and its developmental work in education in south and central asia and in east africa the institute for educational development ied at the aga khan university aku in karachi pakistan the ied came into being in 1993 and launched its first programme in 1994 an m ed in teacher education it recruited 20 teachers carefully selected from schools in pakistan east africa tajikistan and bangladesh there should have been a teacher from india but sadly she was not granted a visa to come these 20 teachers graduating from the m ed course 18 months later were the first graduates from the ied they became the first professional development teachers pdts working with schools and running short courses for other teachers at the ied after three years of pdt work some of these graduates were selected for ph d studies overseas and are now doctoral graduates and central ied faculty the wheel has come full circle in the meantime the m ed programme has flourished and developed with eight cohorts of selected teachers the ied programmes have expanded in a variety of ways and in a variety of directions some are academic programmes educating teachers and educational managers in a university environment albeit with school focused work some are professional programmes located in the field albeit with theoretical elements perceived as central to the developmental process the ied has attracted attention both nationally and internationally in the countries listed above professional programmes have developed to run alongside the central ied operation the ied s work has become visible to government agencies who from tentative initial investment are now looking towards the ied to work with them in the developmental field other countries have seen the results of the ied s work in the original countries and have asked to join the developmental enterprise the ied now works with three countries in east africa namely kenya tanzania and uganda in afghanistan syria and several central asian countries including tajikistan and kyrgyzstan there are possibilities of initiating work in other countries in the region perceived in such terms the ied s growth and influence reads like an educational developmental success story and of course it is a success but this is not to say that there are not many issues and problems to face in its day to day and decade to decade development in 2003 the ied celebrated 10 years of operation this was a time to celebrate and also to take stock of its achievements and issues it has many impact programmes in place seeking to provide sound research evidence to document processes in learning and growth and issues that have to be addressed one problem of rapid growth is that it is easy for the institute and its faculty to become overextended so that in depth review of programmes and outcomes is never achieved despite considerable overextension the ied is striving to avoid this danger this book is a product of the 10 years of development it had been hoped to complete it for the 10 year celebrations but as with other aspects of the ied it kept on growing this volume tries to provide an account of development from a number of perspectives such as historical chronological issues based and honestly critical
